## The Legend of BAMBOO BENNIE

The story of Bamboo Bennie is part adventure, part tall tale, and a generous dash of mystery. No one knows exactly how he got marooned because Bennie never told the same story twice. What we do know is that when the crew found him, he was behind a carved palm trunk bar in a bamboo shanty on the sand with his parrot, Cliff, on a perch and a coconut husk shaker in his hand.

For years after, Bennie bounced from ship to ship, wandering the waves from one mess hall to another, treating crews to whimsical cocktails and wild tales. After a time, he'd disappear as mysteriously as he'd arrived - until the day he turned up here and built The Bamboo Room right where you sit. He settled down for a time, greeting guests each day with a smirk and sharing his creations. Until one day he was gone again... leaving behind only Cliff to keep an eye on the bar, and a signed napkin that read

"The adventure continues... *Bennie.*"
